

Equipment Lock & Construction

A proven way to deter equipment theft and reduce claims

It is estimated that theft of contractors' equipment costs the US economy \$400 million annually. To combat this growing problem, Allianz Global Corporate & Specialty (AGCS) has partnered with The Equipment Lock Company. As an Allianz client you are eligible for a 20% discount off a variety of theft deterrent locking and identification devices.

The Equipment Lock Company is a leading manufacturer of Anti-Theft and crime prevention locks for the equipment and construction industry, including trucks, trailers, containers and more.

Equipment Lock

To learn more about the Equipment Lock company visit www.equipmentlock.com, email info@equipmentlock.com or call 1.866-Lok it up. That's 1-866-565-4887. To receive preferred pricing on a variety of theft deterrent and equipment locks, let them know that you are an Allianz client and mention customer code Allianz20.

Help protect your equipment and your profits by using theft deterrents.

Thank you for choosing Allianz Global Corporate & Specialty

Unprecedented expertise, experience and strength

Allianz Global Corporate & Specialty is a leader in Inland Marine insurance. Our Inland Marine underwriters are highly experienced in working on construction and installation projects and have a proven track record of finding creative ways to address even the toughest situations.

Coverages tailored to the needs of the situation

Our experts work with brokers and their clients to write Inland Marine and related Property coverage for a wide range of businesses. They are committed to finding creative ways to solve problems – regardless of how complex or challenging.

Allianz Global Corporate & Specialty writes more than 100 classes of Inland Marine businesses, including:

Builders Risk

Builders Risk insurance provides contractors and sub-contractors with protection against damage to buildings while they are under construction, renovation or repair.

Contractors Equipment

Contractors Equipment coverage provides contractors ranging from builders and roofers to road pavers and excavators with protection for tools and equipment normally excluded from a Builders Risk policy. Our form covers machinery and equipment wherever it is located.

Installation Floaters

Installation Floaters protect machinery and equipment to be installed at a job site or project. Protection covers property awaiting and during installation, in transit or in temporary storage away from the job site.
