Allianz Group results 6M 2021

Allianz Group has followed up its excellent start into 2021 with another strong performance in the second quarter of the year. With its diversified business portfolio, the Group benefited from the global economic recovery with strong growth in total revenues and operating profit.

Total revenues for 6M 2021 increased 3.1% to €75.7 billion (6M 2020: €73.5 billion). Operating profit grew by 36.7% to €6.7 billion (6M 2020: €4.9 billion), driven by all business segments. The Solvency II capitalization ratio was at 206% at the end of the second quarter of 2021, compared to 210% at end of Q1 2021.

In the Property-Casualty segment, total revenues for 6M 2021 reached €33.6 billion (6M 2020: €33.8 billion). Adjusted for foreign currency effects, internal growth totaled 0.5%, mostly driven by Asia-Pacific, Turkey, and Australia. Despite a rise in natural catastrophe losses, the operating profit increased considerably by 32.0% to €2.9 billion (6M 2020: €2.2 billion). This was caused by a significantly higher underwriting result, mostly due to the absence of COVID-19 related losses. Overall, the combined ratio for the first half-year improved by 3.2 percentage points to 93.4% (6M 2020: 96.7%).

In the Life/Health insurance segment, the present value of net business premiums increased to €39.2 billion (6M 2020: €29.6 billion) driven by a recovery in sales. Operating profit grew to €2.5 billion (6M 2020: €1.8 billion) largely due to an improved investment margin.

In Asset Management, operating profit rose by 19.2%\(^1\) to €1.572 billion (6M 2020: €1.319 billion). Third-party assets under management rose to €1,830 billion - an increase of €118 billion or 6.9 %, compared to year-end 2020.

AGCS\(^1\) results 6M 2021

In Q2 2021, AGCS gross premium written decreased year-on-year by €355 million to €5.165 billion (6M 2020: €5.520 billion). Positive impact from effective rate changes of 22% for renewal business across the portfolio was offset by selected underwriting actions, targeting loss making accounts and segments. Most Lines of Business observed strong momentum on rate improvement, with strongest increases in Financial Lines, Property and Entertainment.

The combined ratio for 6M 2021 stands at 97.8% (6M 2020: 117.2%), which is 19.4% percentage points better than prior year, mainly benefiting from a lower claims volume related to Covid-19. As at Q2 2021, Covid-19 related reserves booked amounted to €35 million compared to €488 million for the first half of 2020.

AGCS’ 6M 2021 operating profit of €179 million (6M 2020: operating loss of €295 million) is €474 million above prior year driven by a significantly lower impact from Covid-19 losses and a positive underwriting performance.
