As part of its global transformation program, Allianz Global Corporate & Specialty (AGCS) will adopt a simplified regional organization to ensure a joined-up market approach, with fully empowered teams steering across regions, but acting within a globally coordinated model. The new organization will increase responsiveness, reduce cost and complexity, and aligns with many distribution partners’ and clients’ businesses.

- Regional Line of Business Heads to steer underwriting across each region
- Regional Claims Heads to lead claims across all countries per region
- Each region managed as a whole to deliver an integrated approach, supported by and aligned with our global model and teams.
